Dear Sir or Madam,

Exclusive One Time Only “ MWAi Hybrid Dealer Summit!”

As you know, during the past two years we have all witnessed and participated in the most amazing migration of technology, business process change, business model stress and security/IT demands which continue to grow. Pretty darn exciting times for all of us!

Inject into this migration the most severe economic conditions during our lifetime and it is pretty clear that all of us in the business community must make significant adjustments to our business methods as well as our expectations. The great news is that we have the opportunity to make the improvements necessary for sustained growth.

As CEO of MWA Intelligence Inc, I have the honor of working with the greatest, brightest and most influential corporations and people in the world. It is undoubtedly a wonderful “catbirds seat” and it affords me the opportunity to learn and prepare MWAi for what is certain to be the greatest next generation in the imaging industry around the world.

After many discussions, we created the “Hybrid Dealer Summit”, scheduled for August 18th and 19th, Scottsdale, Arizona. Yes, it will be a “hot” time in August for our friends who wish to join us.

This exciting program includes some of the most prestigious partners/customers in the world sharing great information with all of us. We will have speakers from every important sector, current and new technology, end user presentations for MPS, developer initiatives , distribution experiences, improved service software for call avoidance and more. We will also be touching on everything from MPS to Intel’s latest and greatest products and how they work with MWAi, for our collective benefit.

We will focus on key business areas that can and do provide you with literal opportunities to improve your bottom line through a greater array of technology via software, service, device management and MPS growth. I can assure you we will balance tomorrow's technology applied today, with very real monetary returns. This Summit is all about delivering information you can make money with that cannot be found any where else!

We are fortunate to have collected a uniquely talented group of industry veterans to present new technologies, improved business models and a great deal of end user input.

This is a wonderful opportunity MWAi is orchestrating for you "the best of the best". Our goal is to assist you and *only you* in this time of great change. When you are successful; we are all successful!

Please review the attached agenda and RSVP to Ms. Rose Alagna at rose.alagna@mwaitel.com or phone her at 480-538-5905.

On behalf of MWAi, the many people who have helped us to make this such a great program, I would like to thank you for your professional courtesy and support!

I look forward to seeing you soon!

Personal Regards,

Mike Stramaglio
CEO, President
MWA Intelligence, Inc
